

Correction to information

Dear Parents / Carers,

Please see below corrections to the information on the newsletter sent this afternoon.

To clarify – as it stands, only people displaying symptoms of COVID-19 should apply for a test.

What you should do:

1. If your child is **at home** and displays any symptoms of COVID-19 they must stay at home and self-isolate, along with all members of the household.
2. As per the government guidance, all members of a household, where somebody is displaying symptoms must then self-isolate - **any members of the household who show symptoms should get a test.**
3. We will ask for a copy of the test results before allowing the child(ren) back into school.
4. If your child is **in school** and develops symptoms we will ask you to collect them immediately, along with any of their siblings.
5. If a child is sent home from a class (bubble) with symptoms of COVID-19 the rest of the bubble will remain in school until we receive the result of the test.
6. If there is a **confirmed case of COVID-19** then the class (bubble) will be sent home and the children and staff in that bubble will be required to self-isolate. **Any children or adults of that bubble who display symptoms will then need to have a test.**

Apologies for the error.

I will provide further clarity and detail to the procedures early next week.

Kind Regards,

Mr C Parkinson
