

In FSI we are exploring...

PSED

In PSED we are exploring change. We will look at how we change but also how to deal with change as it comes. We will begin to talk about how we will be changing year groups and attending school for a full day.

At home you could talk to the children about the times they most enjoyed in FSI and what they are looking forward to in FS2.

Literacy

In Literacy we are going to begin to write/ orally explain instructions of how to complete an obstacle course. We will use a range of positional vocabulary and represent this in a variety of ways.

At home we would like you to engage with dojo and learn the signs. You can also have a go at making an obstacle course at home and talking through the instructions.

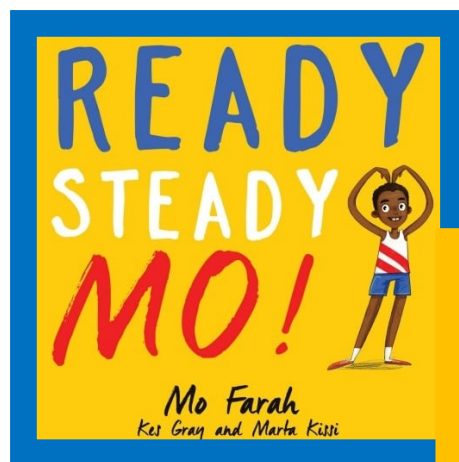

Cooking...

This half term we will be baking, blending and mixing up some treats.

- * Smoothies
- * Hummus
- * Beans on toast
- * Cakes
- * Flapjack

What can you bake at home? Share your photos with us.

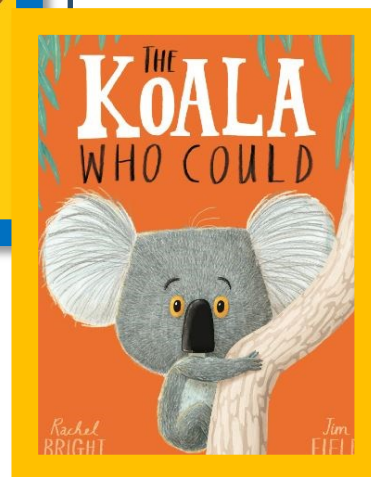

Focus Texts

PD...

In PE we will get ready for sports day and focus on fundamental skills such as throwing, balance, aim and running.

At home you could set up some games in the garden to aim and keep score.

Mathematics

In maths we will explore night and day and order key events in our daily routines, such as waking up, coming to school, dinner, bed time. Children will explore measuring time and link this to positional language in Literacy when completing their obstacle courses.

At home you could find opportunities to include your child in planning out your day through a daily timetable or plan the week ahead.

EAD

We are going to choose materials and media to create using our imagination. We will find ways to join and connect materials in a range of ways in our lego, sewing, creative and woodwork area.

At home you can upcycle and give life to something that is no longer required.

UTW

We will continue to tend to our garden area and look at how our seeds have changed over time. We will begin to harvest our herbs, potatoes and flowers for decoration. We will compare how the seasons have changed over time and look closely at how our lives are similar and differ from others. We will talk about our past year and look to the future as we transition FS2.

At home you can begin to look at photos from the start of the year and see how the children have changed over the year. What do they notice?

In FS2 we are exploring...

PSED

In PSED we are exploring change. We will look at how we change but also how to deal with change as it comes. This will allow us to reflect upon our time in FS2 and think about our transition to year 1.

At home you could talk to the children about the times they most enjoyed in FS2 and what they are looking forward to in year 1.

Literacy

In Literacy we are going to become authors and illustrators as we create our own story. We will look at openings, endings, settings and characters and create books to read to each other. Later in the term we will create wanted posters to search out our villain.

At home, keep reading the children's books and see if the children can use their sounds to write words or simple sentences.

Focus Texts

Transition...

This half term we will be focusing on making sure the children are confident in their move to year 1 but supporting them in meeting their new teacher, seeing their new classroom and beginning to support them in sharing what they want their new teacher to know about them.

At home begin to talk about their time in FS2 and what they have enjoyed and how they will have new adventures in year 1.

PD...

In PE we will get ready for sports day and focus on fundamental skills such as throwing, balance, aim and running.

At home you could set up some games in the garden to aim and keep score.

Mathematics

In maths we will continue to explore number daily during our routines and in provision. We will explore the composition, comparing and ordering in a range of situations. We will explore doubling, sharing, even and odd numbers.

At home you could find opportunities to spot patterns in number arrangements and begin to discuss whether the amount of sweets/toys they have are even or odd.

EAD

We are going to choose materials and media to create using our imagination. We will plan and build in the woodwork area and find ways to join and connect materials in a range of ways in our lego, sewing, creative and woodwork area.

At home you can upcycle and give life to something that is no longer required. Encourage the children to use their imagination to turn a plastic bottle, box or egg carton into something new.

UTW

We will continue to tend to our garden area and look at how our seeds have changed over time. We will begin to harvest our herbs, potatoes and flowers for decoration. We will compare how the seasons have changed over time and look closely at how our lives are similar and differ from others. We will talk about our past year and look to the future as we transition to year 1.

At home you can begin to look at photos from the start of the year and see how the children have changed over the year. What do they notice?
